MONKEYROCKET: (U//FOUO) Submitted ticket to Property for handcarry DD1149 for handoff of equipment to ETC technician coming to NBP320 next week to take back to site. Awaiting finalized paperwork from property team.

(U//FOUO) Received phone call from [REDACTED] TS, that he is hoping to grant ATO for MONKEYROCKET-CONNECTION within a few weeks. He has been tied up in the higher priority of MYSTIC.

(U//FOUO) Tweaked some scripts to enhance data flow.

[REDACTED]

ODD:

Overview:

(S) OAKSTAR 2013 serialized product report totals: **416** reports and **2506** GISTs.

(S) There is one open/active REMEDY ticket for OAKSTAR.

BLUEZEPHYR: Day 2263...

MONKEYROCKET: Day 246

(U) 2013 = 1 report (they were 1 of 43 sources for the report, but hey, it's the 1st).

(TS//NF) Met with SSG11 and S2F on the MR access. The following topics were discussed:

- Checking to see if the DTG/Port/IP Address could be assessed to validate if it hits against the BITCOIN Targets
- Checking to see if the partner does any user validation
- The relationship between BITCOIN targets and the MONKEYROCKET data
- Additional data that is not found in XKS-central, but can be made available to the customer
 - The following files were sent to the customer for analysis:
 - Mac_address.csv
 - Password_hash_history.csv
 - Provider user full.csv
 - User_sessions full.csv

As of right now, MONKEYROCKET is offering a sole source for SIGDEV for the BITCOIN Targets. We requested feedback and any mission highlights they have or will have. (SNM)
