

(TS//SI//NF) Mobility Business Records Flow Significantly Increases  
Volume of Records Delivered Under BR FISA  
By [REDACTED] on 2011-08-30 1440

(TS//SI//NF) On 29 August, FAIRVIEW started delivering Mobility Business Records traffic into MAINWAY under the existing Business Record (BR) FISA authorization. The intent of the Business Records FISA program is to detect previously unknown terrorist threats in the United States through the cell chaining of metadata. This new metadata flow is associated with a cell phone provider and will generate an estimated 1.1 billion cellular records a day in addition to the 700M records delivered currently under the BR FISA. After extensive dialogue with the consumers of the BR data, repeated testing, a push to get this flow operational prior to the tenth anniversary of 9/11, and extensive coordination with external entities via our OGC (to include: FBI, DOJ, ODNI, and FISC) NSA received approval to initiate this dataflow on August 29, 2011. Analysts have already reported seeing BR Cellular records in the Counter Terrorism call-chaining database queries.
